

## **We're hiring...**

### **Service Engineer - Needham Laser Technologies**

We have an exciting opportunity for a Service Engineer to join our team. This field-based role provides a fantastic opportunity to become an integral member of our technical team and to contribute to the long-term development and success of the company. You will be responsible for performing routine service and maintenance check-ups.

#### **Key duties:**

- Visit customers to perform routine service and maintenance check-ups.
- Respond to call outs to repair faulty systems.
- System repairs.
- Continuous development and training; latest software updates, hardware updates.
- Managing own impress stock.
- Suggesting process improvements.

#### **Candidate requirements:**

- Technical experience (laser marking and engraving systems would be an advantage)
- Technical agility; mechanical, electrical, electronics, pneumatics, hydraulics, computer hardware and software
- Willingness to travel
- Good IT skills
- Willingness to learn
- Initiative, enthusiasm and enterprise
- Excellent communication and people skills
- Excellent planning and organisational skills

If this sounds like the opportunity that you have been looking for **or** if you know someone who would be suitable then please apply by sending your CV to HR@needham.group quoting NLTSE in the subject line.

Full training will be provided.
